

# MeetHD

## Conference Speakerphone

SPEAKERPHONE is designed specifically for small and medium-sized collaborative spaces. It features three integrated microphones and an optional extended microphone, along with a high-fidelity speaker capable of capturing your voice from a distance. Additionally, SPEAKERPHONE can be daisy-chained with other SPEAKERPHONE units for conferencing purposes, accommodating the needs of larger meeting spaces. The device incorporates advanced 3A audio algorithms for echo cancellation, noise suppression, and gain control, ensuring that your voice is heard clearly. It is compatible with Android, Windows, and Mac OS operating systems, offering connectivity options either wirelessly or via USB cable. With SPEAKERPHONE, communication has never been easier!
